Subject: Notification per PRN 98-10 – Minor label changes and addition of alternate brand names
Product Name: SUPER 70
EPA Registration Number: 46043-23
Application Date: January 6, 2020
Decision Number: 559644

Dear Ms. Hartman:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

The following alternate brand names have been added to the product record:

- Suncoast Quick Tabs Plus
- Pool Basics Quick Tabs Plus
- Pool Mate Quick Tabs Plus

If you have any questions, you may contact Melanie Bolden at (703) 347-0165 or via email at Bolden.Melanie@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Melanie Bolden for".

Demson Fuller, Product Manager 32
Antimicrobials Division (7510P)
Regulatory Management Branch I
Office of Pesticide Programs

[ABN: Pool Basics Quick Tabs Plus [+]]

[ABN: Pool Mate Quick Tabs Plus [+]]

NOTIFICATION

46043-23

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

04/20/2020

Active Ingredient:

Trichloro-S-Triazinetrione*78.6%

Inert Ingredients.....21.4%

Total.....100%

Available Chlorine.....70%

* Trichloroisocyanuric Acid Dry

KEEP OUT OF REACH OF CHILDREN DANGER

FIRST AID	
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED:	Have person sip a glass of water if possible. Do not induce vomiting unless told to do so by the Poison Control or doctor. Do not give anything by mouth to an unconscious person. Call poison control center or doctor immediately for treatment advice.
<u>HOTLINE NUMBER</u>	
1-800-255-3924	
Have the product container or label with you when calling a poison control center [1-800-222-1222] or doctor, or going for treatment. [You may also contact [1-800-255-3924] for emergency treatment.]	

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. Corrosive. Causes irreversible eye damage. Causes skin burns. Do not get in eyes, on skin or on clothing. Wear goggle, face shield, or safety glasses. **Harmful if swallowed or absorbed through skin.** Wear protective clothing, rubber gloves and shoes with socks. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS

DANGER. Strong oxidizing agent. Use only clean, dry utensils. Add only into water. Contamination with moisture, dirt, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and/or explosion. Avoid any contact with flaming or burning material. Do not use this product in any chlorinating device which has been used with any product other than trichloro-s-triazinetriene tablets or sticks as the active ingredient. Such use may cause fire or explosion.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

METHOD OF APPLICATION:

Use in a floating dispenser, automatic chlorinator or feeder designed for this product or place in skimmer. Use in a new chlorinating device or any device which has previously contained only this product or whose active ingredient is trichloro-s-triazinetriene. If placed in the skimmer, run the pump a minimum of eight hours daily. **DO NOT:** REUSE floaters or feeders from other dry chlorinating products. **DO NOT:** Throw tablets directly into pool. **DO NOT:** Permit tablets to contact plastic pool linings or metal objects. **DO NOT:** Use with any other tablets or sticks in the same skimmer, floater, or feeder. **DO NOT:** Use in any chlorinating device which has been used with other chlorinating compounds.

WATER BALANCE:

To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.8, total alkalinity from 90 to 125 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all these ranges. Make any necessary adjustments promptly with the appropriate [Suncoast] products.

ROUTINE CHLORINATION:

Add one tablet per 10,000 gallons of pool water every week or as often as needed to maintain chlorine residual at 2 to 4 ppm. Follow "Method of Application". This dosage may vary depending upon bather load, water temperature and other conditions. Pool should not be entered until the chlorine residual is 1 to 3 ppm as measured with a reliable test kit. **Re-entry into treated swimming pools is prohibited above levels of 3 ppm of chlorine.**

As a preventative treatment, you should shock treat your pool once per week to prevent pool problems. In addition to weekly shock treatment, you should shock treat to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or

eye irritation occur, after heavy wind and rainstorms, or if algae doses develop with resulting green color and slimy feeling.

SHOCK TREATMENT:

Adjust pH to 7.2 to 7.4 [with Suncoast pH Plus or Suncoast pH Minus] per label directions. Shock treat weekly with a [Suncoast] shocking product to kill bacteria, control algae, burn out organic material and to keep water sparkling clear. Follow label directions.

ALGAE CONTROL:

If pool surface develops algae or feels slippery, follow shock treatment directions. Immediately after shock treatment, thoroughly clean pool by scrubbing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the procedure. Pool should not be entered until the chlorine residual is 1 to 3 ppm.

OPENING YOUR POOL:

Balance pool water, shock treat, and stabilize your pool using [Suncoast Conditioner]. Then follow "Routine Chlorination" directions.

STORAGE AND DISPOSAL ~~{Usage of statements below depend on whether the product is being used for residential or non-residential purposes.}~~

{For nonrefillable containers – household/residential use}

[Do not contaminate water, food or feed by storage or disposal. Keep product dry in a tightly closed original container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flames.

Nonrefillable container. Do not reuse or refill this container. Triple rinse empty container thoroughly with water prior to disposal. Offer for recycling, if available. If partly filled, call your local solid waste agency or 1-800-CLEANUP (800-253-2687) for disposal instructions. Never place unused product down any indoor or outdoor drain.]

{Nonrefillable container – non-household/residential use}

[Do not contaminate water, food or feed by storage or disposal. Keep product dry in a tightly closed original container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flames.

Nonrefillable container. Do not reuse or refill this container. Triple rinse empty container thoroughly with water prior to disposal. Offer for recycling, if available. If partly filled, call your local solid waste agency or 1-800-CLEANUP (800-253-2687) for disposal instructions. Never place unused product down any indoor or outdoor drain.

Always store pesticides in the original container. If a leaky container must be contained within another, mark the outer container to identify the contents.

Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for Guidance.]

ENVIRONMENTAL HAZARD

{For containers 50 lbs. and under:} This pesticide is toxic to fish and aquatic organisms.

{For containers over 50 lbs.:} This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**[TO DETERMINE YOUR POOL CAPACITY IN U.S. GALLONS,
USE THE APPROPRIATE FORMULA BELOW (Use measurements in feet only.)**

RECTANGULAR:

Length x Width x Average Depth x 7.5 = Total Gallons

ROUND:

Diameter x Diameter x Average Depth x 5.9 = Total Gallons

OVAL:

Maximum Length x Maximum Width x Average Depth x 5.9 = Total Gallons

FREEFORM:

Surface Area (square feet) x Average Depth x 7.5 – Total Gallons]

[Slow-Dissolving] Sanitizer]
[[Quick] [Kwik] Dissolving [tab[lets]]]
[100% Soluble]
[For 18" round pools]
[For 12' x 15' x 24' oval pools]
[For [Intex] [Above Ground] pools]
[Stabilized Chlorinator]
[Swimming Pool Sanitizer]
[70% Available Chlorine]
[Stabilized Slow-Dissolving Chlorinating Tablets]
[Concentrated Swimming Pool Chlorinating Tabs]
[Large tablets]
[Long-lasting tablets]

[[1] [One] tablet per 7,500 gallons]
[[1] [One] a day [tabs] [tablets]
[Destroys organic contaminants]
[Disinfectant] [Disinfect]
[Controls Bacteria and Algae]
[Kills Algae]
[Controls Algae]
[Plus Algae Control]
[Prevents Algae]
[Provides long lasting algae control [algae suppression]]
[Controls all types of algae]
[Aids in removing existing algae stains]
[Specially formulated for above-ground pools]
[Specially formulated for vinyl pools]
[Suitable for [all] [pools], [pool surfaces], [salt water pools]]
[Good for all pool types]
[For use in a floater or in-line feeder]
[For use in a floater or automatic feeder]
[UV protected against the sun's rays]
[UV-protected for extended chlorine life]
[Extends the life of your pool [or spa]]
[Keeps pool water sparkling clean]
[Adds sparkle to your water]
[Water Softener]
[Water Clarifier]
[Water feels softer and silkier]
[Improves water clarity]
[Improves water quality]
[Leaves no residue]
[Concentrated]
[Inhibits scale formation]
[Inhibits scale from accumulating on surfaces and equipment]
[Corrosion Inhibitor]
[pH Buffer]
[Reduces pH Drift]
[Helps reduce chlorine odor]
[Makes maintaining pools easier with fewer problems and better water quality]
[Improves Filtration]
[Decreases time balancing water / Decreases maintenance time]
[Helps keep your pool clear and beautiful throughout the winter months with little to no effort]
[May help in reducing operating costs]
[Advanced Formula]
[Plus Borate]
[Formulated with additional borate]
[Additional borate [technology] [chemistry]]
